WORK EXPERIENCE

UI/UX Designer — *Pars Next (Remote, Iran)* July 2026 – Present
Designing the UI/UX for a dark, futuristic Persian (RTL) landing page featuring an interactive 3D hero section built with Three.js and React. Working as a remote/freelance collaborator, taking on project-based work as it comes up.

Product Designer — *Apta (Mashhad, Iran)* Jun/Jul 2024 – Mar 2025 (1y 8m)
Designed enterprise systems and dashboards, including SPMS. Developed design systems tailored to each project, strengthening a scalable, consistent approach to UI design.

Product Designer — *Paraf (Mashhad, Iran)* Jan/Feb 2025 – Jul 2025 (5m)
Designed and redesigned sections of Paraf, a marketing product not yet launched. Collaborated closely with the technical/development team, created new design concepts, and presented design work to stakeholders.

EDUCATION

Bachelor's Degree — Computer Engineering, Software — *Alzahra University* 2021 – 2025
Thesis: A machine learning project involving a database-driven AI model.
